

NXG LE TIME CLOCK

The next generation in robust and flexible time collection with true plug and play installation.

The NXG LE provides the power and capability to meet an employer's needs. The user interface will engage employees, shorten the learning curve and reduce data input errors. Automatically maintained validation tables will ensure only correct data is collected, improving payroll and labor cost accuracy.

The NXG LE boasts an engaging and intuitive user interface, along with a snap dome keypad. Its versatile design delivers sophisticated capabilities while maintaining ease of use. The NXG LE time clock is ideal for companies looking to perform primarily time and attendance-only monitoring.

Designed and assembled in the U.S.

With the NXG LE clock, employees can:

- Punch in/out for their shifts, breaks and meals
 - Schedule restrictions prevent employees from punching outside of their scheduled times
 - Optional minimum meal break restrictions can ensure compliance with state laws or company policies
- View current schedules
- View historical punches made for today, this week, or last week

Supervisors can:

- Override schedule and meal restrictions
- Insert missing punches

Clock Specifications/Features:

- Supports mag stripe, barcode, or proximity, as well as a keypad entry for punching
- Communication options: Ethernet & Wi-Fi, or Power Over Ethernet
- Snap dome buttons
- Color display
- Keypad navigation

The NXG LE was designed by iSolved specifically to integrate seamlessly with iSolved Time, iSolved TimeForce and TimeForce II!
